# Message From Our CEO

With the ever-changing landscape of healthcare, the mission of Houston Healthcare remains the same – “to improve the healthcare of the communities we serve by providing patient-focused, high quality, cost-effective services while promoting health and wellness.” Over the years, how we successfully implement and live out the mission has changed. Our people, quality care, patients, and successful physician and community partnerships continue to be our driving force and where our investments must lie.

Over the past year, both Houston Medical Center and Perry Hospital have been awarded top quality grades in patient safety. Positive outcomes, a strong commitment from staff and physicians, and consistently reviewing internal processes have led us to this achievement. As providing high-quality care is a part of our mission, Houston Healthcare successfully completed the transition to DNV-GL Healthcare for accreditation. As an organization, we are continuously looking for ways to increase operational efficiencies, improve the overall patient experience, and achieve optimal health outcomes. DNV’s annual review of Houston Medical Center and Perry Hospital has proven beneficial for our staff, and we know we will continue to enhance the quality provided to our patients through this process.

Accessing stroke care services is now easier for Houston County and surrounding areas. As a health care system and in collaboration with our medical staff, we have implemented processes to provide treatments that can minimize or even prevent the debilitating effects of stroke, if treatment is given in time. We have implemented technology that places a stroke specialty physician at the patient’s

bedside and have also developed a stroke treatment program that involves our Emergency Medical Services staff, as well as our Emergency and Critical Care employees. We are continuing to invest in the necessary services to improve the health and delivery of health services of the communities we serve.

Our community members and partners are dedicated to improving the health of those close to home and are invested in developing ways to better meet the medical needs in our community. By providing programs such as the Athletic Training program to the Houston County Board of Education, we are able to enhance the health services available to student athletes and their families. We are proud to partner with organizations within our community who are also dedicated to making the lives of those in our community better.

A large part of our success as an organization are the physicians who provide care each day at our facilities. We encourage their continued involvement in process improvement, setting goals, and evaluation of new services and technologies. Expanding our services and partnering with rural communities to enhance their quality of healthcare will only strengthen our system overall.

Houston Healthcare is committed to providing excellent care and offering services that meet the needs of our growing community. As we continue to face the challenges ahead, we are confident our team will continue to develop initiatives that will yield significant improvements in quality outcomes and patient satisfaction.

Charles Briscoe,  
Interim President and Chief Executive Officer

## Our Mission

*To improve the healthcare of the communities we serve by providing patient-focused, high quality, cost-effective services while promoting health and wellness.*

## Our Vision

*“A caring health system dedicated to excellence - today and tomorrow.”*

## Our Values

**Respect** - entails a high regard for worth of each person. It gives everyone a voice and promotes teamwork.

**Integrity** - promotes honesty and straightforwardness in dealing with each other in attempting to make our system work to its full potential.

**Service Innovation** - encourages creativity in seeking continuous quality improvements and in meeting customer requirements.

**Excellence** - fosters constant, continuous striving for quality service in duty and work done.

# Connecting People, Community and Care.
